

### 5.6.3 *Electric*

Pacific Gas & Electric (PG&E) will provide electricity distribution to the DRSP area. Existing overhead service lines run along Cherokee Place, Pomeroy Road, and the eastern edge of the property. New service lines will be placed in or adjacent to the right-of way of the proposed commercial and residential roadways. All new electric lines will be placed underground.

Residential neighborhoods within the DRSP area will be designed to accommodate installation of solar panels on rooftops per the County's current Building Code. Installation of solar on all residential homes will aid in generating needed electricity on-site and minimize the overall environmental impact by the community.

## 6.5 Solid Waste, Recycling, and Green Waste

Solid waste, recycling, and green waste generated by the new development will be serviced by the South County Sanitary Services. The solid waste, recycling, and green waste will be disposed of at the Cold Canyon Landfill. Based on current disposal rates, this facility has a capacity to accept solid waste until at least the year 2040. South County Sanitary Services has reviewed the conceptual plans and will provide solid waste, recycling, and green waste pick-up service to the DRSP area.
